Subject: Comments to the Chairman

Saamntha (kmcgill@cfl.rr.com) writes:

I would like to bring to your attention one thing that is very disturbing to me. Due to the recent hurricanes there has be information that has been broadcasted that is vital to everyones safty. I have noticed that on every channel there is an inturpitor doing sign language to get this information to the deaf community. On most of the channels the inturpitor is always covered with the stations logo. This is doing a great injustice to the people who need this information. I would like to see this change with your help. Can you please look into the situation and see that it is mandated to have the inturpitor clear and free of any logos or CC.

Thank You
